EMPLOYMENT

Internship at Abilisense , Tel Aviv
December 2022 — Present

Abilisense is a company that specializes in sound recognition technology, which is used to analyze sounds in different environments.

- Led the development of a web application for creating surveys
- Enabled users to record video or voice responses
- Included a speech recognition feature
- Built from scratch by a team
- Used MongoDB and AWS for the database infrastructure.

EDUCATION

SvCollege, Tel Aviv
May 2022 — December 2022

I completed the comprehensive SVCollege course in web development, which covered HTML5, CSS3, JavaScript, React, Node.js, Express, and NoSQL (MongoDB). Through the course, I gained skills in both client-side and server-side development and completed two large projects.

CS50X

- Completed the well-known and highly regarded CS50x course in computer science
- Gained a deep understanding of programming fundamentals and computer science concepts
- Covered a variety of topics, including C, Python, HTML, CSS, and JavaScript
- Culminated in a final project that allowed me to apply my skills to a real-world problem
- Provided a solid foundation in computer science
- Helped to make me a more effective and confident developer

★ MILITARY SERVICE:

- Served as a fighter and commander in the paratroopers brigade,
- Completed full military service with distinction, receiving an discharge with the rank of First Sergeant.
